

Height:	1800 mm
Panel Width:	130 mm
Overhead Projection:	500 mm
Panel Thickness:	40 mm (30 mm Head)
Main Material:	#304 / #316 Stainless Steel
Surface Finish:	Matte Black / Brushed Stainless

MAIN COMPONENTS & CONFIGURATION

1 × Integrated Rectangular Overhead Rain Shower

1 × Brass H/C Mixer Valve Unit

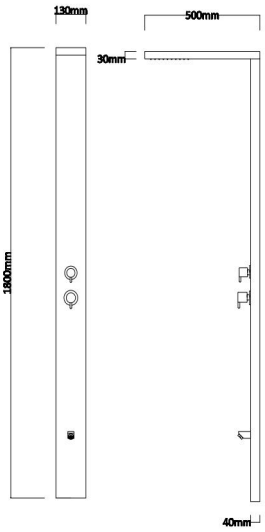

1 × Rotary Function Diverter Dial

1 × Bottom Spout / Lower Water Outlet

1 × Ultra-Slim Architectural Body Structure

1 × Complete Internal Waterway & Mounting Brackets

TECHNICAL DRAWINGS

FUNCTION DESCRIPTION

Water Diversion: Brass 2-way diverter valve directing water flow between the top plastic shower head and the brass lower spout.

Water Supply: Built-in hot and cold regular brass valve for reliable temperature adjustment.

Protective Back Cover: Top shower head and rear body equipped with back side covers to shield internal piping from dust and moisture.

INSTALLATION & CONNECTIONS

Mounting Type: Wall-mounted with concealed fixing brackets tailored for ultra-slim 40mm profiles.

Inlet Connections: Concealed rear G1/2' hot and cold water supply connections.
